

Bluegill founder Miss Satvinder Sandhu worked on the Autodesk account in a past role and won the award for Best Interactive Campaign. The award was awarded by the Singapore Institute of Public Relations.

About Autodesk

Now, 9 million professionals in 185 countries are using Autodesk products to save time and money, gain competitive advantage, and change the way ideas are brought to life.

Since 1982, Autodesk has ushered in state-of-the-art 2D and 3D technologies that let customers visualise, simulate, and analyse the real-world performance of their ideas early in the design process.

This gives our customers the flexibility to optimise and improve designs before actually executing them.

Autodesk customers not only see, but experience, their designs before they are real, empowering them to save time and money, improve quality, and foster innovation.
